Preliminary program and registration form will be available
on website www.econcongressi.it

The meeting is intended to be a one-day multidisciplinary update with focus on ideas, techniques and technology that are changing the scenario of esophageal surgery.

TOPICS

- Clinical impact of high resolution manometry and pH impedance monitoring
- The concept of lower esophageal sphincter augmentation
- Transoral esophageal myotomy for achalasia
- Radiofrequency ablation and antireflux management of non-dysplastic Barrett's esophagus
- Esophageal preservation in high-grade dysplasia and Barrett's carcinoma
- Vagal sparing esophagectomy
- Thoracoscopic esophagectomy
- Limited versus extended lymphadenectomy
- Definitive chemoradiation therapy
- The art and science of esophageal anastomosis
- Recognition and management of gastric conduit ischemia
- The fast-track concept in esophageal surgery
- Perioperative nutrition
- Quality assessment, education and training in esophageal surgery
